

Fall Newsletter

Volume 2, Issue 3 - Fall 2010

It's Fall Everyone!

Happy Fall everyone! I know I'm a bit overly excited that it's fall, but the fall season is a wonderful time. I love how the leaves change colours and the bit of frost that you get on the leaves in the morning.

At the same time I'm sad that summer is over. I've already closed my pool and had to put all my backyard

summer stuff away, but on the brighter side I did meet some fantastic people over the summer. Had a great time creating some wonderful memories for some new families I met. To see more of what I've been doing you can visit me on the web at www.ssphotography.ca.

Go Antiquing in Your Home

Over time antique photographs you've kept on your dresser, or framed up the stairway, have become very special memories to your children and grandchildren. They are true family heirlooms. You'll probably want to pass them along to your children, but you don't want to be forced to split them up. I am now offering a high quality reproduction and, when necessary, the restoration of your antique photographs.

There are many techniques available to reproduce images. Be careful though, colour copies from many other systems produce prints that only last 2 to 10 years. The system I use produce high-resolution images using the same long lasting silver halide technology and materials as your originals.

It has been very rewarding to see the emotion on

the faces of my clients when they see a reproduction of their precious antique photograph, and with a new imaging computer system, your original prints never leave my office. Security, economics and quality are three great reasons you should give me a call to discuss this unique service.

To show you what I can do, I've named October as Antiques Month at Susan Strackholder Photography. Call me at 613.277.0683 to bring me your special photographs before October 31st, and you'll receive a 10% discount on your first reproduction.

Photos of the Month

I love halloween! I know it's a bit early to talk about it, but I love the whole idea of dressing up at night and seeing all the creative costumes that people come up with. I use to dress up with my kids and go out trick or treating when they were in younger. We would carve pumpkins

and decorate the house, we would have a blast. Well, my kids aren't so small anymore but we still dress up and hand out candy.

Make sure you have your camera ready to take lots of pictures of your little trick or treaters this year.

Live, Laugh, Love Quotes

If you can laugh at it then you can live with it. ~Unknown

Glamour Shots

The Beauty Boutique and Day Spa located on Elgin Street in Arnprior and myself, put together a very successful 2 day Glamour Shot sessions.

Melissa and Lisa from the salon provided the ladies with hair and makeup and then I provided them with a photo session with an 8 x 10. We all had a blast getting together and having some fun girl time. I've added a few shots that I thought you might enjoy seeing.

I want to thank all the ladies for making

this so much fun to do and I look forward to January when we get together again for our next session.

For anyone that is

interested in having a glamour shot session, please call **The Beauty Boutique and Day Spa** at **613-623-4040** to book your time.

Random Fun Facts

Here are some useless random fun facts that you can impress your friends and family with.

- There are 1 million ants for every person in the world.
